## **Gateway Safety's Luminary™ Eye Protection: The Lightest and Brightest Idea in Contemporary Safety Eyewear**

October 21, 2008—From its ultra-lightweight frame to its contemporary, patent-pending design, Luminary™ safety eyewear has the look, fit, and feel of great-looking eye protection that is easy to wear all day, every day. Created for style and comfort, as well as safety, Luminary dramatically improves end user compliance rates, reducing PPE expenses.

Unique translucent temple insets, which match the lens color, give Luminary its cutting-edge style. The soft, flexible temples relieve pressure behind the ears, enhancing comfort and easily fitting any size face. At only four-fifths of an ounce, Luminary is so light, workers will forget they have them on.

A large, one-piece polycarbonate lens, with an integrated brow guard and wrap-around design, offers excellent coverage against workplace hazards. An anti-scratch coating, which comes standard on all versions of Luminary, provides durability and keeps workers seeing clearly.

Luminary is available with a variety of classic and contemporary lens colors.

Gateway Safety, Inc. designs and manufactures cost-effective, dependable eye, hearing, respiratory, and head and face protection products that workers want to wear. Since 1944, Gateway Safety, Inc. has made it its mission to help companies increase safety compliance and improve the overall welfare of their employees – which, in turn, helps companies reduce the high costs associated with eye and face injuries.
