

# Serpent™

ventilated safety helmets

## There's No Reason To Be A Hot Head.

Always keep your cool on the jobsite, with **Serpent™** ventilated safety helmets. **Serpent™** protects the top of your head, while keeping you cooler, even in harsh work environments.

It's no secret that heat rises. That's why **Serpent™** safety helmets feature the CoolSense™ Air Flow System, which consists of six strategically designed vents along the peak of the head. Unlike traditional hard hats that allow heat to build up, these vents allow the heat to escape – keeping you much cooler.

Combined with a multi-feature fit adjustment system, the ventilated **Serpent™** is one of the most comfortable safety helmets available. So stop sweating the small stuff, no matter how hard you work.

# Serpent™

ventilated safety helmets

Featuring the CoolSense™ Air Flow System, **Serpent™** stops the heat, keeping workers cooler.

## Serpent™ Features

- Snake-head shell design provides attractive style, while offering extremely durable head protection.
- Manufactured from a high-density, polyethylene material that's incredibly lightweight – just 13.1 ounces.
- CoolSense™ Air Flow System lets heat escape, keeping workers cooler and, therefore, promotes compliance.
- Soft, six-point nylon suspension is comfortable, yet provides exceptional impact absorption.
- Available with a pin-lock or ratchet suspension, which adjusts to fit 6<sup>5</sup>/<sub>8</sub> – 8<sup>1</sup>/<sub>4</sub> head sizes.
- Soft, cushioned brow pad helps absorb moisture.
- Rain trough helps keep rain off workers.
- Accommodates Venom™ face shields, when used in combination with Gateway Safety cap adapters.
